

Access Your KMS Brokerage Account(s)

NetExchange Client® provides access to your brokerage account, online statements, and allows for electronic delivery of various communications.

- You can **self-register** for online access to accounts registered under your Social Security number.
- For accounts registered under a Tax ID (business, trust, organization, etc.) please contact your Representative for the *User ID and Electronic Delivery Request* form. Your Representative will provide your logon information after the form is processed.

To **self-register** go to www.netxclient.com and look for the link to “Register Now.”

Once your online access is established you can elect E-delivery of statements, trade confirmations, and other documents by clicking the  button. Selecting e-delivery of trade confirmations qualifies you for a reduced confirmation fee on trades.

After choosing e-delivery you receive a welcome letter and e-mail. When a document is available to view online, you are alerted by an e-mail that includes a link to MyeDocumentSuite.com. You can view, print, or download those documents from *either* www.NetXClient.com or www.MyeDocumentSuite.com.

You can change your e-delivery options any time and update the email address where you receive e-delivery notices.

Note: To log on to NetExchange Client, enter 4DR in the *Financial Organization Number* field.

Please contact your Representative should you need further assistance.
